Dear Dean and Kayla,

On behalf of the Dallas Hearing Foundation, I want to extend my genuine appreciation for your services at our November 14, 2015 fundraising event.

Your team has been such a blessing, from our first meeting. We had been through several auction services and had not been pleased with the companies and had all but given up on finding a company that would fit with our cause. After meeting with you, we knew this experience would be different, and we were right.

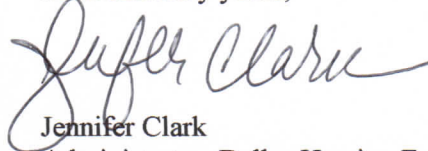

You and your team acted like this was your own charity event from day one, from checking in regularly, to offering suggestions and ideas, to helping us with auction items, to genuinely caring about our event.

The auction was such a hit and our crowd LOVED Dean! He made the event fun and made everyone involved on our board commented on how Dean was not just an auctioneer, but an entertainer.

The technology, led by Kayla, was flawless. Attendees commented on how easy the system was and how helpful the staff was if they had any questions.

Putting together an event of our size is stressful enough without having concerns about auctions and technology. Your team truly made this such a great experience for our board and our volunteers. You are now part of the DHF family and we are excited to see what we can do together for our 2016 event. Thank you so much for the great work!

Most sincerely yours,

Jennifer Clark
